

# MANISH SOLANKI

## MERN STACK

Rajkot, Gujarat, (India) | 93276 50586 | solankimanish0045@gmail.com | [www.solankimanish.dev](http://www.solankimanish.dev) | <https://github.com/SolankiManish005>

With a Bachelor of Computer Applications and over one and a half years of experience in JavaScript, I have primarily excelled in backend development using Node.js. My strong backend expertise is demonstrated through successful project completions and smooth client deliveries. Recently, I have ventured into frontend development with React, completing projects and continuously enhancing my skills. Additionally, I have a foundational understanding of Docker and deployment processes and am proficient in Linux environments.

Having honed my skills and gained substantial practical experience, I am enthusiastic about contributing as a MERN Stack developer. I am eager to apply my expertise in a collaborative and friendly team environment, continually expanding my knowledge and making meaningful contributions to development projects.

## EXPERIENCE

OCT 2025-  
PRESENT

### JUNIOR MERN STACK DEVELOPER - ANANSI TECHSOL LLP

Leading scalable MERN applications using MVC architecture and real-time data integration. Responsible for code quality, deployments, and mentoring interns.

MAY 2025-  
SEPT 2025

### INTERNSHIP - MERN STACK DEVELOPER - INFYDOTS TECHNOLOGIES

Contributed to backend systems using Node.js and Express.js, focusing on API performance, secure data flow, and scalable enterprise solutions.

OCT 2024-  
APRIL 2025

### TRAINEE - DIVINE ERP SOLUTIONS PVT. LTD.

Completed hands-on training in React.js, Next.js, and the MERN stack, focusing on building responsive user interfaces with Tailwind CSS and developing secure REST APIs using Node.js, Express.js, and JWT-based authentication.

## EDUCATION

2023-2026

### BACHELOR OF COMPUTER APPLICATION - SAURASHTRA UNIVERSITY

Rajkot, Gujarat (India)  
Vivekananda collage of Computer Science and Management.

## SKILLS

- Strong understanding of full-stack architecture, REST APIs and database design using **MongoDB & PostgreSQL**
- Proficient in **TypeScript, JavaScript (ES6+), React.js Next.js** and modern UI development with **Tailwind CSS & Shadcn/UI**
- Excellent problem-solving and communication skills for translating business requirements into scalable technical solutions
- High attention to detail in writing clean, maintainable, and bug-free code with proper validation and error handling
- Experience building and deploying applications using **Node.js, Express.js, Docker and Vercel**
- Ability to collaborate effectively with cross-functional teams using **Git & GitHub** and Agile development practices
- Familiar with **GraphQL**, CI/CD workflows, and working across **Linux & Windows** environments

## ACTIVITIES

Actively participated in developer communities and collaborative projects to enhance MERN stack and full-stack development skills

Regularly explored and practiced modern web technologies including **Next.js, TypeScript, GraphQL, and Docker**
